Subject: 360 nationally renowned scientists back EPA's Bristol Bay Watershed Assessment; urge Clean Water Act protections for Bristol Bay
Attachments: Final - Scientist Sign on Letter for Final Watershed Assessment.pdf; ***EMBARGOED COPY*** 360 nationally renowned scientists back EPA's Bristol Bay Watershed Assessment; urge Clean Water Act protections for Bristol Bay

I wanted to give you a heads up that tomorrow morning a scientist sign on letter of over 360 scientists (325 PhDs) will be released to the press and EPA. It will be given to Dennis McLerran at the Alaska Forum on the Environment in Anchorage. It is embargoed with the press until 12:30 a.m. EST.

Pew and TU put the letter together over the last month to help the Bristol Bay folks reinforce the need for action by EPA. As you recall we did a similar letter last year for the draft watershed assessment. This letter calls for EPA to take action based on the results of the Final Watershed Assessment.

Let me know if you have any questions.

Marilyn
